

## Introduction:

### Education definition:

**Education** is the **process of teaching or learning**, especially in a **school or other educational institution**, or the **knowledge, skills and habits that you get from this**.

*It's important for children to get a good education.*

There are three types of education:

### A. Formal Education:

1. It takes place in schools or other educational institutions.
2. It's given by qualified teachers.
3. It observes strict discipline.
4. It uses systematic curriculum (textbooks, ...)
5. It's limited to a specific period.
6. It's recognized in a qualification, certificate, degree or diploma.

### B. Non-formal Education:

1. It's organized in a school-like setting.
2. It's not part of the formal system of education.
3. It might follow a certain program.
4. It's a second chance for drop-outs or those who didn't have a chance to attend school.
5. It doesn't lead to a qualification, certificate, diploma or degree.

### C. Informal Education:

1. It's a result of exposure to the environment at home, society, daily work, leisure, etc.
2. It's incidental and spontaneous.
3. Bridges the gap between school and life.
4. It's a life-long process.
5. It's not limited to a specific time.
