Read the film and copmlete the chart below

Rio is a 2011 American 3D computer-animated adventure-comedy film. It is produced by Blue Sky Studios and directed by Carlos Saldanha. The title refers to the Brazilian city of Rio de Janeiro, where the film is set. The main characters are :Blu -a boy macaw who can't fly. He is shy and clumsy but very clever too, Jewel- a girl macaw who wants to escape the rainforest, Nigel - a cockatoo that is very mean and hates exotic birds like macaws, Linda - a human and Blu's owner, Rodrigo- a Brazilian ornithologist, and Carlos- the leader of the smugglers

The movie tells the story of a blue macaw that was smuggled out of Brazil. When his crate fell off a truck in America, he was rescued by Linda who named him Blu. Blu never learned to fly because he was raised by a human and so the other birds make fun of him. Years later, an ornithologist invites Linda and Blu to visit Rio de Janeiro with him in the hopes of finding Blu and helping him to learn to fly. There he meets Jewel, another macaw, and falls in love. There are many adventures including being captured by a group of smugglers.

This movie is very entertaining. We learn about bird smuggling and how cruel it is. I liked the fact that this movie mixes cartoon characters and human beings. The bird cartoon characters are colorful and very amusing.
