Titanic is one of the most astounding films in history. It is the masterpiece of James Cameron, who mixes love, friendship and greed on board the doomed liner heading towards disaster. The movie takes place on board the Titanic, a luxury passenger ship, making its first voyage, from England to America in 1912.

The story is about the adventures of Jack and Rose, a young couple, who fall in love after they meet on the ship. Kate Winslet starred as Rose (Young) , and Leonardo DeCaprio played the role of Jack, a young poor artist who wants to make this trip to the U.S to start a new life. Other actors included Billy Zane, Cal Frances Fisher, Rith Danny Nucci beside others. The movie begins with the world's greatest ship, Titanic, leaving England for America.

Everything is fine until the ship, which no one believed could sink, hits an iceberg. As the ship begins to sink into the freezing ocean, Jack and Rose struggle to keep together and stay alive. James Cameron has really put everything into this film and he has got it exactly how the Titanic should be including the wreck and the real ship.

I enjoyed the movie, but it wasn't as good as I had expected. The acting was excellent and the non-stop action was exciting. The special effects were also amazing, especially the ship itself, which seemed so real. The music was very romantic. However, because of the unrealistic, silly love story, the dialogue was rather poor. I am sure you'll enjoy it, though.
